Introductions

I'm Kenwey, a passionate web designer and wordpress developer with a creative eye and a knack for turning ideas into remarkable digital experiences.

With a strong background in design principles and expertise in front-end development, I strive to create visually stunning and user-friendly websites that leave a lasting impression.

Skills

Website Design

I specialize in creating visually stunning and user-friendly website designs.

HTML Development

I can handle HTML development to build responsive and optimized web pages.

WordPress Development

I have extensive experience in WordPress development, customizing themes, and building fully functional websites.

Knowledge of SEO

I understand SEO in programming, optimizing code, schema, and site structure for organic traffic.

Woocommerce Setup

I can set up and configure the powerful Woocommerce plugin for seamless eCommerce functionality.

Graphic Design

I can help with graphic design to enhance the brand identity and create visually appealing assets.
